

REQUEST FOR PROPOSALS/QUALIFICATIONS

POLICE DEPARTMENT HEADQUARTERS PROJECT

CITY OF LOGANSPORT, INDIANA

I. PROJECT INTRODUCTION:

In accordance with IC 5-23-5, the City of Logansport, Indiana (the "City"), invites any and all qualified parties to submit Proposals and Statements of Qualifications to design, obtain financing, construct, and/or transfer a new police department headquarters building (the "Project") in the City under a public-private partnership. The purpose and intent of the Project is to fulfill critical public safety responsibilities and provide a safe and secure working environment for the police department.

II. PROJECT SCOPE:

The City is using this RFPQ to identify a proposer that can:

- (1) Evaluate the conditions of the Police Department's current facilities.
- (2) Make recommendations to the Police Department and City based on this evaluation.
- (3) Upon providing these recommendations -- design, finance, and construct the Project to the extent that the City and Police Department determine a recommendation for renovations or new facilities are necessary and wise.

If the City determines that renovation or construction is necessary upon receiving the deliverables from the selected proposer, then the selected proposer will provide all financing services, development services, design services, site work, labor and material to construct the Project. If the recommended and selected course of action requires land or building acquisition, the selected proposer may need to provide site analysis and acquisition assistance as well.

To be clear, neither the scope nor the need for any Project has been determined at this time. The final Project scope will be determined through a scoping period with the selected proposer, during which the selected proposer will be required to provide financing terms, analysis to create a final scope, site analysis, and a guaranteed budget. The scoping period will likely be a very intense exercise with all required analysis being delivered by the selected proposer in Summer, 2021. Upon receiving satisfactory scoping period deliverables from the selected offeror and determining a need for a Project, the City's Common Council may move forward with the Project and selected offeror via resolution at a public hearing. If the selected offeror is unable to produce satisfactory deliverables (including desirable financing terms and budget) or if it is determined that no need exists for the Project, the City's Common Council will begin a new scoping period with another offeror or cancel this RFPQ process altogether.

III. PROPOSAL EVALUATION:

The City has formed a committee to review the proposals received. The criteria which will be utilized in evaluating proposals are as follows:

- Your experience developing similar public projects
- Your demonstrated ability and capacity to perform the work, including your reputation as indicated by your references for performing this type of work

- Your approach to develop the project, including a financing solution to meet all requirements of IC 5-23
- Your proposed fees during the scoping period

- The scoping process may have a somewhat long duration in which time the selected proposer would need to prepare financing terms, construction/scope analysis, and a guaranteed budget sufficient for the City to make a decision on proceeding (or not) with the Project and/or with the selected proposer. Please identify fees that may be requested by your team during this process. You may offer hourly rates, an overall lump sum, or multiple lump sums segregated by task.
