- Employer contribution: 17.5 percent of your certified salary to fund your benefit.²
- Your contribution: 6 percent of your certified salary, deducted each pay period from your salary.

Eligibility for Normal Retirement Benefits

- Monthly benefit equal to at least 52 percent of the certified salary in the year you retired, plus an additional 1 percent of certified salary for each six months of active service over 20 years, up to a maximum of 12 additional years.

DROP Eligibility and Early Retirement Benefits

Deferred Retirement Option Plan (DROP)

Allows members who are eligible for an unreduced retirement benefit to continue to work and earn a salary while accumulating a DROP benefit payable in a lump sum or three annual installments. A DROP retirement date cannot be less than 12 months and not more than 36 months after the member's DROP entry date.

If you have 20 years of service, you may elect to retire and receive actuarially reduced benefits at age 50.

Retirement and Survivor Benefits

Three types of benefits are payable in the '77 Fund. All are funded by the employer-financed contribution and the employee mandatory contribution:

- Retirement benefits,
- Survivor benefits, and
- Disability benefits

Lump Sum Death Benefit

Your heirs or estate are entitled to receive a one-time death benefit of \$12,000 upon your death.

If you die in the line of duty, the survivor benefits below will be calculated as though you were receiving retirement benefits at age 52 with 20 years of service.

Survivor Benefits

- **Spouse:** monthly benefit equal to 100 percent of your monthly retirement benefit
- **Surviving children:** monthly benefit equal to 20 percent of your monthly retirement or disability benefit. The benefit is payable until the child reaches 18 years of age or until the child reaches 23 years of age if the child is enrolled in a secondary school or is a full-time student at an accredited college or university.
- **No surviving eligible child or spouse:** qualified parents are entitled jointly to receive 50 percent of your monthly benefit

¹As of July 1, 2021.

²Employer contribution rate is set annually by the INPRS Board of Trustees.

'77 FUND AT A GLANCE

Survivors of Active Members (Non-Line of Duty) and Survivors of Retirees

Survivor benefits will be paid if:

- you die as an active member of the '77 Fund, or
- leave employment and have at least 20 years of creditable service but are not yet retired and receiving benefits.

Survivor Benefits, continued

Each benefit will be calculated as though you were receiving retirement benefits at age 52 with 20 years of service. The following survivor benefits will also be paid if you die while receiving retirement or disability benefits.

- **Spouse:** monthly benefit equal to 70 percent of your monthly retirement benefit
- **Surviving children:** monthly benefit equal to 20 percent of your monthly retirement benefit. The benefit is payable until the child reaches 18 years of age or until the child reaches 23 years of age if the child is enrolled in a secondary school or is a full-time student at an accredited college or university.
- **No surviving eligible child or spouse:** qualified parents are entitled jointly to receive 50 percent of your monthly benefit

Beneficiaries

Beneficiaries are set by law and are not subject to personal choice if you die before receiving retirement benefits. If you reach retirement age and do not have a beneficiary, are not receiving a disability benefit and the board has not returned your member contributions, you may designate one or more beneficiaries to receive contributions. Contributions will be paid to your estate if there is no eligible survivor and no beneficiary is designated.

Line of Duty Benefits

Death Benefit

If you die in the line of duty (as determined by INPRS), a special one-time death benefit of \$225,000 will be paid to your surviving spouse, or surviving children if there is no spouse. If you have no surviving spouse or child, the special death benefit is payable to your parent(s) in equal shares.

Withdrawals Before Retirement

If you terminate employment before you complete 20 years of service, you can withdraw your 6 percent member contributions and accumulated interest. If you have at least 20 years of service and terminate employment before you are age eligible for a retirement benefit, you are not eligible to withdraw your member contributions.
